Certificate of Calibration

Model Number: 5400-71N50

Serial Number: 0925137

Anritsu Calibration Date (dd-mm-yy): 24-08-09

Suggested Calibration Interval*: 6 Months

Anritsu Company hereby certifies that the equipment listed above has been measured and where applicable calibrated in accordance with the documented procedures using test equipment and standards whose accuracy is traceable to international standards, the National Institute of Standards and Technology (NIST) or other national standards, intrinsic standards; or derived from ratio type self calibration techniques. Ambient Conditions: Temperature 18 to 28 Degrees Celsius, Relative Humidity 10 - 80%. At the time of calibration, the equipment met or exceeded the specifications published in the applicable product documentation.

Calibrated by: ☒ Manufacturing
☐ Other: _____

Approved By:

Eric McLean, Director of Corporate Quality

Anritsu Company's calibration facilities comply with the requirements of
ISO/IEC 9001-2000, ISO/IEC Guide 25-1994 & ANSI/NCSL Z540-1-1994

Instructions for Completing the Removable Calibration Label

*A suggested calibration interval is indicated on this Certification of Calibration. It is based on the Anritsu global experience with this product. Your application may require a different calibration interval. **The calibration interval should begin with the date the product is put into service by the customer.** Proper storage prior to being put in service will not affect the suggested calibration interval.

Below is a table for calculating (and entering) the calibration due date:

Calibration Details	Example (dd-mm-yy)	Actual (dd-mm-yy)
Anritsu Calibration Date	15-10-02	24-08-09
Date Product Put Into Service	01-03-03	
Customer Calibration Interval	12 months	
Calibration Due Date	01-03-04	

Please calculate the calibration due date, based on the date the product was put into service, and the desired calibration interval. This can be entered on this Certificate of Calibration, as well as the Label below. This **Removable Calibration Label** can then be attached to the product.
